# Spectrum Genius Cloud Platform

Thousands of Spectrum Data

Lighting Info Comparison

Lighting Situation

Spectrum Collection

Lighting Knowledge

"SpectrumGenius.com" is the world's first Cloud Platform with thousands of data on all kinds of light fixtures and lighting applications. This innovative new service enables anyone in the lighting industry to easily acquire global lighting information and find their product positioning.

"SpectrumGenius.com" not only provides reliable information on global lighting, but also provides many convenient features. Users can quickly find the type of light they want to search for with an easy-to-use "Lighting Situation" feature. In addition, "Spectrum Collection" can also be used to collect users' favorite lighting information for use in consultations and to make comparisons of saved measurements later on.

This platform also provides complete lighting knowledge aimed at general users, ensuring that anyone can find exactly what they're looking for based on actual spectrum measurements and practical application photos of lighting conditions.

Who directly benefits from this service? Lighting Passport users can create their own lighting information data on this platform via the new "Spectrum Genius Plus" APP series. By comparing their own lighting information against a robust collection of reference parameters, users can find their own product positioning or the ideal product and win a leading place in today's competitive online marketplace.

## Spectrum Genius Mobile Plus (SGM+) APP

 Record Search

 Sync Service

 Cloud Sharing

 Multiple Photograph

 Quick View

Spectrum Genius Mobile Plus (SGM+) APP is one of the Fully Upgraded and Elevated "Spectrum Genius APP Series" which delivers more intuitive and comprehensive service for Lighting Passport users!

In the latest version, users can synchronize measurement records in their own cloud accounts. This makes it easy for Lighting Passport users to transfer and access data records when switching between different mobile devices and enjoy greater convenience when sharing measurement data over the cloud.

The newest version of the APP also features a more optimized UI and expanded UX features including "Record Search", "Quick View", or "Multiple Photograph" to deliver a better overall measurement experience.

In the future, the Spectrum Genius Mobile Plus (SGM+) APP will also provide more features through the cloud that will take Lighting Passport users to the next level.

### APP Functions

Before you begin, you should go to App Store or Google Play, then search "asensetek." Now download the APP "Spectrum Genius Mobile Plus" and install it.
